

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to be taxed unfairly for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, those who make few long distance calls would pay the same as those who make many calls. In other words, low-volume customers such as I would bear the same universal service fund burden as a high-volume customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that high-volume users can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Dan Tye
